CONTACT: STEVE SMITH, VP of SALES

American Plating Power (APP) offers the most extensive DC power supply product line available anywhere. Switch mode (IGBT) and SCR rectifiers from 100 watts up to 2MW. APP switch modes are highly efficient, with a high Power Factor and low ripple. Our SCR rectifiers are the most efficient in the industry. And all our rectifiers are 100% duty cycle. Air, water, or oil cooled. Other styles include variable transformer, pulse, reverse pulse, Ecoat, high voltage, and DCAC color anodize systems. Wide variety of controls options. Excellent aftermarket support. Spare parts available for all makes and models.

We make training entertaining! Our primary trainer, Richard Villa, has been a safety professional for 15 years, and he is also a professional comedian! Your workers will learn more from our training on safety, sexual harassment and workplace violence. Too often supervisors and managers struggle to be leaders, and it makes your business less profitable. Our Leadership Training is designed for supervisors and 1st level managers and helps them to be better leaders.

TrinSoft's PHTPlus is a powerful ERP solution for Plating, Heat Treating and Finishing Services on a local or global scale. PHTPlus is built for the outsourced manufacturing service company specializing in finishing services such as plating and coating. The solution is designed to give you a single view into all systems, delivering the control and insight you need to streamline processes, reduce costs and increase margins. PHTPlus is designed to work the way you do. It's for companies like yours that receive customers' parts, perform a process on them, and send those parts back to the customer.

Since 1938, Univertical continues to be committed to manufacturing superior quality Copper anodes and Copper and Nickel chemicals for the worldwide plating industry. Whether it's through the invention of the titanium and graphite baskets, the introduction of phosphorized anodes, or novel manufacturing techniques, we have always been the leader in the industry. Univertical also partners with global industry leaders Vale and Draslovka, to offer high quality plating anodes and cyanides for your plating needs.
