**ABCO PRODUCTS** sells and distributes a wide variety of chemicals, equipment and supplies for the metal finishing industry. Proudly distribute the following company products: MacDermid, Metal Chem, U.S. Specialty Colors and many other manufacturers.

- Processing chemicals for anodizing
- Brushes – Tampico & Nylon
- Aluminum & Copper Wire
- Paint Strippers
- Chromates for Alkaline and Acid Zincs
- Phosphate Coating
- Electroless Nickel
- Bright Nickel

ACM Technologies, a division of ResinTech Inc., employs cutting-edge technology to design solutions engineered to satisfy our customer's environmental challenges, water purification needs, and resource-recovery objectives. ACM specializes in restoring exhausted resin to its proper ionic form for service. Regeneration reduces costs & ensures wastewater is handled correctly. ACM's metals elimination solutions provide cost-effective methods of removing dissolved heavy metals from wastewater. Deionized, environmentally compliant water can then be discharged safely or returned to service.

Anachem has been providing excellent quality control laboratory services to the metal finishing industry since 1948.

We are Nadcap and A2LA approved and hold all the major prime approvals: Boeing, Airbus, Bombardier, Lockheed, Northrop, Snecma.

We aim to be a full-service laboratory meeting all your coating needs. Our services include salt spray, humidity, CASS, abrasion resistance, coating weight, adhesion, and electrical resistance testing. Our laboratory is also capable of doing metallographic testing such as IGA/EGP, microhardness and microthickness as well as hydrogen embrittlement. We also provide process solution control analysis on a very fast turnaround.

**Your Partner in Start-to-Finish Industrial Chemical Solutions**

For over 60 years, **Coral Chemical Company** has been providing complete start-to-finish process efficiency solutions to the metal finishing industry. Utilizing our specialty industrial chemical products, Coral's team of pretreatment, metal working and wastewater treatment chemical experts partner with our customers to improve production, lower operational costs, reduce waste and comply with regulatory requirements.

**Pretreatment Chemicals** - Coral's industrial pretreatment chemicals include a full line of metal pretreatment products. From cleaning to conversion coatings to final rinses, Coral can supply everything needed to prepare metal and plastic products for the application of a coating.

**Metal Working Fluids** - Coral's metal working fluids include high-quality machining fluids, metal forming lubricants and rust preventatives. Whether your

**CORAL CHEMICAL COMPANY (continued)****TABLE # 18**

process is cutting, grinding, roll-forming, blanking, forming or protecting processed parts; Coral can provide the best solution for your unique challenges.

**Process Water Treatment** - Coral's total management concept for the metal finishing industry includes an extensive line of process water treatment chemicals. From neutralizing waste water to precipitating heavy metals to dissolving phosphates, our water treatment chemicals reduce sludge and clarify waste water.

**Technical Expertise That Delivers Results** - In the lab or in the field, our comprehensive technical support and persistent problem-solving capabilities result in superior parts performance and quality. Our fast turnaround on process resolutions and product delivery help our customers stay competitive and profitable.

**Simply put... Coral adds just the right chemistry for results.**

E-MAIL: [info@datcomanufacturing.com](mailto:info@datcomanufacturing.com)  
WEBSITE: [www.datcomanufacturing.com](http://www.datcomanufacturing.com)

CONTACT: MICHAEL DATUS

At **DATCO MFG**, we are the company to call on for all your plating equipment needs. We are able to customize the largest computerized plating shop from the floor to the ceiling, yet able to handle the smallest tank order. We do on-site equipment repair and installation. We offer full one-year warranties on all equipment we manufacture.

**STAINLESS STEEL & TITANIUM CUSTUM ORDER TANKS:**

Our steel tanks are manufactured from a 304 or 316 Stainless Steel and our Titanium tanks are made from chemical resistant Titanium. The welds are of high tensile rod with full penetration. The tanks are welded inside and out, including the corners, which are woven to insure the strong leak proof protection. Since we shear our own steel, your tanks are the size you ask for, not the size the sheet came in. We then leak test them.

**DATCO MANUFACTURING (continued)**  
**POLYPROPYLENE CUSTOM ORDER TANKS:**

**TABLE # 21**

Our polypropylene tanks are from American ONLY made virgin polymers. Our tanks are not cut but are heat formed so the corners never leak. Professionally trained workers, with ten years or more of experience, hand-weld each and every tank themselves. All rims are custom machined to fit on the wall of the tank and double welded. The sheets are Wagner automated to make our seams. (It does one hundred percent original strength welds.)

After applying the latest in technology to the assembly of your tank, we thoroughly test your tank with the latest in diagnostic test equipment. The welds are electronically tested twice over 24 hours. Then the steel supports are welded on and the uni-body encapsulation is put on.

We also make complete systems. We have complete lines for gold plating, electro-less nickel, aqueous cleaning, to Electro-cleaning, phosphate, and alodine to anodize.

If you would like to know more about DATCO and the services we offer, please feel free to contact us. We will be glad to help you in any way that we possibly can.

As the worldwide leader in Specialty Coatings, MacDermid Enthone understands what it takes to satisfy our customers' needs: the ability to listen to their challenges and the expertise to provide the highest performing, customized solutions possible. Customers use our high performance products to prepare and finish a wide range of metals and plastics in a diverse range of industries and applications. Specialty chemical formulations which improve corrosion and wear resistance as well as enhancing surface aesthetics. Through our Unrivaled Innovation & Service, we provide our customers chemical processing solutions, materials and services that lower their costs, improve their quality, and increase their productivity.
