ACM Technologies, a division of ResinTech Inc., employs cutting-edge technology to design solutions engineered to satisfy our customer's environmental challenges, water purification needs, and resource-recovery objectives. ACM specializes in restoring exhausted resin to its proper ionic form for service. Regeneration reduces costs & ensures wastewater is handled correctly. ACM's metals elimination solutions provide cost-effective methods of removing dissolved heavy metals from wastewater. Deionized, environmentally compliant water can then be discharged safely or returned to service.

**AFLAC**

**TABLE # 20**

CONTACT: GENE AMNUEL

AirKinetics has been a leading provider of emissions testing services to industry and government partners since 1995. AirKinetics has earned an excellent reputation within the local, state and federal regulatory community. This simply means that our clients can count on quality work with a company that stands behind its service.

In a highly regulated industry, our experience and understanding of emissions regulations and test methods enables us to provide our clients low-risk, cost-

**AIRKINETICS (continued)****TABLE # 20**

effective solutions. Nationally recognized and headquartered in Southern California, we have spent 25 years serving clients in California, Hawaii, Nevada, Arizona, Oklahoma, Texas, Oregon and Washington state.

Our project experience includes Compliance, Regulatory, Continuous Emission Monitoring System (CEMS) certifications/Relative Accuracy Test Audits (RATAs), toxics, long-term continuous monitoring, engineering diagnostic testing, consulting, and expert witness testimony.

CONTACT: MATHU MATTHEWS

Anachem has been providing excellent quality control laboratory services to the metal finishing industry since 1948.

We are Nadcap and A2LA approved and hold all the major prime approvals: Boeing, Airbus, Bombardier, Lockheed, Northrop, Snecma.

We aim to be a full-service laboratory meeting all your coating needs. Our services include salt spray, humidity, CASS, abrasion resistance, coating weight, adhesion, and electrical resistance testing. Our laboratory is also capable of doing metallographic testing such as IGA/EGP, microhardness and microthickness as well as hydrogen embrittlement. We also provide process solution control analysis on a very fast turnaround.

WorkFlo is a software system specifically designed to help you manage the challenges of providing surface engineering and thermal processing services to your aerospace, high-technology, and NADCAP customers. In addition to the software that creates the planning, we provide thousands of hours of data entry to define the requirements of the specifications. WorkFlo is our complete solution for your company's workflow management. The program takes your parts door-to-door through your shopfloor with accurate, real-time information and documentation. WorkFlo accounts for sales & quoting, certifications, shipping & receiving, vendor tracking, accounts receivable and much more. Precision and control from start to finish. New this year – Introducing Workflo / Worx, our guidance system for your operators that makes it easy and is a cost effective way to see who did what and when they did it.

For over 60 years, **Coral Chemical Company** has been providing complete start-to-finish process efficiency solutions to the metal finishing industry. Utilizing our specialty industrial chemical products, Coral's team of pretreatment, metal working and wastewater treatment chemical experts partner with our customers to improve production, lower operational costs, reduce waste and comply with regulatory requirements.

**Pretreatment Chemicals** - Coral's industrial pretreatment chemicals include a full line of metal pretreatment products. From cleaning to conversion coatings to final rinses, Coral can supply everything needed to prepare metal and plastic products for the application of a coating.

**Metal Working Fluids** - Coral's metal working fluids include high-quality machining fluids, metal forming lubricants and rust preventatives. Whether your process is cutting, grinding, roll-forming, blanking, forming or protecting processed parts; Coral can provide the best solution for your unique challenges.

**CORAL CHEMICAL COMPANY (continued)**

**TABLE # 54**

**Process Water Treatment** - Coral's total management concept for the metal finishing industry includes an extensive line of process water treatment chemicals. From neutralizing waste water to precipitating heavy metals to dissolving phosphates, our water treatment chemicals reduce sludge and clarify waste water.

**Technical Expertise That Delivers Results** - In the lab or in the field, our comprehensive technical support and persistent problem-solving capabilities result in superior parts performance and quality. Our fast turnaround on process resolutions and product delivery help our customers stay competitive and profitable.

**Simply put... Coral adds just the right chemistry for results.**
