

MFASC / MFANC is updating our *Facilities Guide for 2019-2020*. The Facilities Guide lists all our members companies, their addresses, and processes. It also lists suppliers to the association. There is no better resource book for metal finishers. We are going back to a “printed” desktop book, as well as being placed on our website. <https://mfaca.org/directory/mfaca/mfanc/>. Thank you for being a member of the California Metal Finishing Association.

Bryan Leiker
California Executive Director
